GLAMOUR

FORM FUNCTION BEAUTY

An architectural landmark reimagined for modern celebrations.

Set on a private hillside with **panoramic views of the Santa Rosa Mountains**, the estate invites connection through intentional design. Its signature parabolic roof, conceived by Walter S. White, rises in an open gesture. A reflection of the space itself: ***expansive, welcoming, and distinctly modern***.

Across **two acres**, couples and their guests move seamlessly from the ceremony to a poolside cocktail hour or reception dinner.

The main house and seven Casitas accommodate **up to 20 guests** for a full weekend of celebration. Where you can stay, play, and make the experience your own.

05 THE EXPERIENCE

The estate offers complete privacy for you and your guests across two acres of indoor and outdoor living. Panoramic views and expansive green spaces set the stage for every part of your weekend, from poolside gatherings and sunset ceremonies to relaxed mornings and fireside evenings.

Throughout the property, you'll find amenities that bring ease to your experience, indoor and out: a spacious living room, a gourmet kitchen, a large pool, fire pits, a covered patio, and a small putting green.

The mid-century-inspired living quarters are designed for comfort and style, blending architectural character with modern conveniences. With the main house and seven on-site Casitas (sleeping up to 20), the space easily accommodates full weekend stays — so you can host welcome dinners, farewell brunches, and everything in between, all in one place.
